

Attention Parents:

Parents' Council met with the School Board on Monday, April 24, 2017.

After much discussion we voted to change the parents' council fee to \$250.00 per family.

Parents' council greatly depends upon parent volunteers to ensure our fundraising efforts like our steak suppers and various school centered activities take place. Fundraisers are used to purchase items to help improve the school for our children and teachers. Parents' Council holds many events for the faculty and students throughout the year.

We understand that some families simply cannot give 8 hours of time to the school and would rather do their part by sending a check. In that case, we ask that you please pay that amount at the beginning of the school year.

The families that are willing to give their time will either remain on the jobs they are currently signed up for or choose new ones or donate \$250 to parents' council. Sign-up sheets will go out the first week of school.

We appreciate everything our families contribute to our school to help benefit our children and faculty. We look forward to growing together during the new school year!
